this volume examines the phenomenon of fake news by bringing together leading experts from different fields within psychology and related areas and explores what has become a prominent feature of public discourse since the first brexit referendum and the 2016 us election campaign dealing with misinformation is important in many areas of daily life including politics the marketplace health communication journalism education and science in a general climate where facts and misinformation blur and are intentionally blurred this book asks what determines whether people accept and share mis information and what can be done to counter misinformation all three of these aspects need to be understood in the context of online social networks which have fundamentally changed the way information is produced consumed and transmitted the contributions within this volume summarize the most up to date empirical findings theories and applications and discuss cutting edge ideas and future directions of interventions to counter fake news also providing guidance on how to handle misinformation in an age of alternative facts this is a fascinating and vital reading for students and academics in psychology communication and political science and for professionals including policy makers and journalists

critical readings in social psychology brings a fresh approach to the study of key topics in social psychology by contrasting classic and contemporary readings in core

social psychological areas each chapter author presents contrasting approaches to a particular topic through the inclusion of two or three extracts from previously published texts that have been influential in shaping social psychological ideas these extracts are supported by the author s commentary which illuminates the part that debate and criticism play in the ways that social psychology continues to change and develop the result is a clear and stimulating collection on seven key topics in social psychology close relationships attitudes attribution intragroup processes intergroup processes conformity individual differences a combination of textbook and reader this book is designed specifically for social psychology students it also provides an accessible set of teaching materials for coverage of the major topics in contemporary social psychology detailed in the british psychological society curriculum guidelines

students often get lost in the details most will never take a second psychology course they often have trouble relating the material to their everyday lives the new fourth edition of kowalski westen s psychology addresses these teaching challenges the student develops evaluative reasoning through self discovery for a lifetime of learning students are drawn into the material in a way that intrigues and stimulates so they begin to see psychology at work in their daily lives like its predecessors this new edition effectively captures the diversity and breadth of psychology a complete overview of how human beings think feel and behave is included psychology is an evolving science which continually addresses and re addresses the relationship between psychological events and their neural underpinnings between cognition and emotion between cultural processes and human evolution between nature and nurture and more

responding to the need for educational stakeholders to plan for evolving developments in policy and practice for learners with learning and behavioral disabilities the authors in this edited collection predict what the next big things in the field will be and offer recommendations on how to prepare for that envisioned future

this highly insightful and cohesive group of studies reveals the power of political narratives to create conflict and peace words of conflict words of war how the language we use in political processes sparks fighting is a fascinating exploration of the narratives leaders use to position both themselves and others in the course of political

processes that lead to peace or conflict drawing on the relatively new field of positioning theory expert essays provide insights into the ways words position us for better or worse and influence our intended results the focus on narratives from the interpersonal to the international leads to a better understanding of political processes and conflict resolution part one of the study deals with micropolitics and personal positioning part two explores positioning by political parties and factions links between micro and macro are illustrated by leadership studies of individuals such as president barak obama president mahmoud ahmadinejad president george w bush governor sarah palin and the reverend ian paisley the focus throughout is on how a leader can use language to redirect collective politics in support of conflict or of peace
